WORLD HAPPENINGS BRIEFLY TOLD

Great Britain formally recognized the independence of Erythra.

Christmas Day is the only day on which the governments in Australia and New Zealand are closed.

Dr. J. M. Macdonald, Mayor of Toronto, a member of the Royal Warrant, has been killed in action while serving in R.I.C.A. Also, it has been learned.

Stores of persons were burned to death and thousands left homeless when five of unknown origin swept through the waterlogged district of this Shanghai peninsula port.

Michael Gorman, Russian pilot who crashed in the North Sea, has arrived in Britain. He was accompanied by four other Soviet airmen.

Edmonton city council passed a resolution urging an increase of \$11 a month in the age pension for the pensioners cope with the rising cost of living.

As a defense pact, 10,000 youths in the next four months are to be drilled in the United States by the semi-official Tokyo Youth Marching Band.

Effective October 27, the Federal Canada Act passed during the last session of the Parliament of Canada, will come into effect in Nova Scotia, Ontario, Quebec, Saskatchewan, Alberta, British Columbia, the Northwest Territories and the Yukon.

Wartime Housing

Program Is Designed To Alleviate Housing Conditions

Wartime housing conditions throughout the municipalities and supply department that the housing program in Canada is designed to alleviate the construction of 4,427 bungalows, 35 state houses, four community centers and 100 small houses in 27 cities and towns.

Confidence in the program is designed to alleviate housing conditions where abnormal shifting of the population, war, or the development of war plants has created a problem.

Confidence in the program is designed to alleviate housing conditions where abnormal shifting of the population, war, or the development of war plants has created a problem.

Up light bright and early—the first young house built by Anne Adams' Pattern 4177 is a just what the community needs. It is a small, single-story house, with a full bathroom, a full kitchen, a full living room, and a full bedroom. It is a small, single-story house, with a full bathroom, a full kitchen, a full living room, and a full bedroom.

The estimated cost of the young house in hand which is the first of the new houses to be built in the community is \$1,000. The estimated cost of the young house in hand which is the first of the new houses to be built in the community is \$1,000.

Speaking of the government's recent move to check rising prices, he said the Wartime Price and Trade Board would have to exercise care in "too stringent restriction" by "denying production to a point where a scarcity will determine the price, but not by exactly the opposite effect to the one desired."

Can Meet Demands

President of National Dairy Council Speaks For Dairywomen

Gilbert McMillan, of Huntington, Ontario, president of the National Dairy Council of Canada, told the dairy council convention that "Canadian dairywomen meet all the demands made on them by wartime conditions."

Speaking of the government's recent move to check rising prices, he said the Wartime Price and Trade Board would have to exercise care in "too stringent restriction" by "denying production to a point where a scarcity will determine the price, but not by exactly the opposite effect to the one desired."

No Further Cuts

The American Government has notified the Spanish Government that the United States will furnish no further credits to Spain and no more aid to that country in the way of food supplies in view of Finland's position in the war against the Soviet Union, carrying hostilities beyond the aid of Finland which is now the Russo-Finnish war two years ago.

Musicians Feel Excitement

Not operating under the National Public Health Service, for the first year ended last June 30 was a success, an increase of \$14,000 over the previous fiscal year, says a statement released at the company's annual meeting.

A "bridge" less than 18 feet long is not a bridge, says a railway engineering officer. It is a railway bridge.

More than 100,000 men hours are required to construct one "griping" railway tumbler.

The average automobile driver reports a warning in three-fourths of a second.

The Common Cold

One-Fourth of American Homes Reported Colds in One Week

In the one week ending Oct. 12, a survey by the Gallup Poll found colds reported in one-fourth of American homes, with an estimated total of 13,000,000 persons affected.

This means one person in every 10 was suffering from the common cold, which health authorities call a cold with a sore throat.

The east coast, west coast and Pacific coast sections led the list in incidence of colds with the latter every 8 (12 per cent) affected in every section.

The proportion in the New England and Middle Atlantic states was the highest, with 12 per cent of the total the number was the same.

No Peace With Nazis

Peace And The Overthrow Of Hitler Are Inseparable

What should not be a debate on whether we shall do all we can to defeat the Nazis and the overthrow of Hitler and whether we shall do it, says the New York Times.

MEDICAL EDUCATION FOR THE PEOPLE

Nothing in the realm of public health is of greater value than the education of the people.

From such books as Victor Heiser's "An American Doctor's Odyssey," thousands have learned that the control of epidemics is quite as fascinating a contest as any war.

Heiser set about a "clean-up." He gained after great difficulties, the control of the epidemic of striking asbestos workers.
